PROFILE

Finance BBA candidate (coursework completed) targeting AI consulting, AI adoption and AI solutions roles. Builds working prototypes by specifying requirements, directing AI coding agents (Claude Code, Codex) and validating the results. Six months in a five-star hotel front office handling payments, credit-limit checks and guest issues in German and English. Available now for a mandatory internship of 5-12 months or an entry-level role; latest start January 2027.

EDUCATION

Bachelor of Business Administration, Finance specialization

October 2024 - present

Northwood University, USA; program delivered at HIM Business School, Montreux, Switzerland

Academic coursework completed in September 2026; formal degree award pending.

Relevant coursework: Innovating with AI: Transforming Business and User Experience, Data Driven Decision Making, Financial Management, Corporate Investment Decisions, Capital Markets & Analysis, Portfolio Management, Financial & Managerial Accounting, Customer Experience.

WORK EXPERIENCE

Front Office Trainee, Kempinski Palace Engelberg

April 2025 - September 2025

Five-star hotel, Engelberg, Switzerland; 129 rooms and suites; front-office team of 14

- Handled guest payments and credit-limit checks during shifts in German and English.
- Monitored open guest bills against deposits and flagged accounts needing a top-up.
- Maintained a small Excel sheet cross-checking ski passes sold against charges on guest bills.
- Handled guest complaints and requests under time pressure; documented handovers and follow-up actions.

PROJECTS

Built by specifying requirements, directing AI coding agents (Claude Code, Codex) and validating the results; GLO-BUS was a university team project.

- **LegacyChain:** Digital estate-preparation product for Germany. Turned research into requirements and user journeys; directed AI-assisted implementation and reviewed outputs, including privacy and release checks.
- **GLO-BUS:** University business simulation completed as a team. Made most major decisions and helped shape the team's strategic direction; contributed to evaluating business choices.
- **julestack.dev:** Bilingual portfolio website (German/English). Defined requirements, directed AI-assisted implementation and reviewed content, design and functionality.

CERTIFICATIONS

McKinsey.org Forward Program
